Hi KC,

I have checked with SORL, the manufacturer of the off-axis collimator, and other multiple sources, as well as with multiple sources pertaining to the laser engravers (ours is imported from China), and confirmed that there are no export restrictions on either device. I was told that EAR99 is to be used for the ECCN numbers for both of them. Please file the export declaration accordingly.

Best regards, Naum

Hi Naum,

As I was filling the AES, it seems like the laser engraving machine and the collimator are controlled items for Russia.

Do have the ECCN for these items.

Tks

KC

Hi KC,

I left later than expected today and had to go to the airport shortly thereafter. My wife will bring the invoices and packing lists tomorrow.

Thank you, Naum
